INNOVATIONS

FEEL FLEX

An evolution of Clash's Free Flex technology, Feel Flex features proprietary carbon mapping strategically placed at specific points throughout the hoop of the racket to provide additional stability and flexibility, leading to a more connected-to-the-ball feel while better complementing the modern, vertical swing path.

STABLE SMART

Simulation-assisted geometry designed to give best-in-class stability while allowing the frame to move in pre-specified dimensions.

FREE FLEX

A revolutionary technology that makes Clash the world's first racket intentionally engineered to bend with any swing style. Both traditional, horizontal strokes and modern, vertical ones are enhanced through proprietary carbon mapping, allowing players to swing freely and confidently with maximum ball pocketing and ultimate control.

COUNTERVAIL®

Countervail is a patented carbon fiber layer that maximizes a players energy, recovery and control by minimizing vibration without sacrificing performance and feel.

SPIN EFFECT®

Patented Spin Effect Technology is the first racket system that actually increases ball RPM without players changing their swing. The net seems lower and the court feels longer on all your shots.

POWER RIB TECHNOLOGY

Integrated racket throat geometry and grommet technology that enables the ball to explode off your racket. The enhanced geometry provides greater stability and power while the innovative yoke grommet creates more potential energy and ball dwell time on strings, resulting in a larger hotspot.

X2 ERGO

A customizable handle shape creates optimal personalized feel for the "modern" two-handed backhand. Patent-pending.

BRAIDED GRAPHITE + BASALT

Braided Graphite + Basalt is an elastic and reactive material combination that improves the flex of a racket. This evolution of Wilson's BLX® technology increases the ball's contact with the strings to provide enhanced feel and greater control.

HIGH PERFORMANCE CARBON FIBER

Developed for aggressive swings, this premium modulus carbon graphite provides increased frame stiffness for explosive power.

TRIAD®

Three-piece Racket system where hoop and handle are separated with Iso-Zorb, providing the ultimate in comfort and soft feel.

POWERPROFILE

POWER PROFILE FRAME GEOMETRY

This cutting-edge racket frame design produces the ultimate in power at a lighter weight.

BRAIDED GRAPHITE®

Braided Graphite provides a pure, solid and consistent feel that players have loved for decades. This strong construction also dampens vibration and enhances touch and control.

CUSHIONFOAM

This handle technology softens impact for optimal dampening and shock absorption to provide smooth comfort.

PARALLEL DRILLING

Provides a consistent, more forgiving string bed response while dramatically increasing the sweet spot.

amplifeel 360

Amplifeel 360 features a full Basalt expanded handle for enhanced feel with increased racket power and reduced weight.

Spin Effect® Technology is a racket and string pattern innovation that increases ball spin. Pros often customize the racket they use.
Racket specifications on endorsed consumer models may vary from the models used by Pros for match-play.
